

Kishan Kannaujiya

Data Analyst

Kalyan, Maharashtra 421605 | +91 8928962496 | kishankannaujiya8@gmail.com | linkedin.com/in/kishankannaujiya-data-analyst | github.com/Watcher00-0

PROFESSIONAL SUMMARY

Data-driven professional with a BSc in Computer Science and three years of experience as a Mathematics and IT educator, transitioning into Data Analytics. Skilled in Python, SQL, Excel, Power BI, Tableau, and statistical analysis, with hands-on experience building interactive dashboards and applying machine learning fundamentals. AWS and Databricks certified; seeking entry-level Data Analyst or Business Analyst roles.

WORK EXPERIENCE

Data Analytics Job Simulation — Tata Group (via Forage)

Aug 2026 – Present | Remote

- Built 4 interactive Power BI dashboards for CEO/CMO decision-making on retail sales data, covering revenue seasonality, top countries, top 10 customers, and a world expansion bubble map
- Enhanced dashboards with interactive buttons, bookmarks, and a consistent visual theme across all reports

Data Analytics with AI Intern — BharatCares (AICTE & IBM SkillsBuild)

Aug 2026 – Present | Remote

- Completed masterclasses in data cleaning, EDA, predictive analytics, and ML fundamentals (regression, classification, decision trees, clustering)
- Built visualizations in Power BI and Tableau; earned IBM credentials in Generative AI Essentials, Data Fundamentals, and Agentic AI
- Developed and presented a final project applying data analytics and AI to a real-world business problem

Mathematics and IT Teacher — H.S International High School

Jun 2023 – Present | Mumbai

- Taught mathematics and IT to 11th/12th-grade science, commerce, and IT students; improved student performance by 25% through data-informed, personalized teaching methods

PROJECTS

Deloitte Australia Data Analytics Job Simulation — Forage

- Completed a data analysis and forensic technology simulation; built a Tableau dashboard and used Excel to classify data and draw business conclusions

Data Analytics Job Simulation — Tata Group (via Forage)

- Built 4 interactive Power BI dashboards on retail sales data to support executive decision-making on revenue trends, market expansion, and customer strategy.

Weather & Air Quality Analytics Dashboard — Personal Project

- Built an interactive Power BI dashboard integrating live weather API data to visualize current conditions, forecasts, and air quality metrics (PM2.5, PM10, CO, NO₂, O₃, SO₂) with location-based filtering and KPI cards for temperature, humidity, wind speed, and UV index.

EDUCATION

University of Mumbai — Master of Science, Computer Science

August 2026 (In Progress)

B.K. Birla College, University of Mumbai — Bachelor of Science, Computer Science | CGPA: 8.7

2025

SKILLS

Python, SQL, Power BI, Tableau, Excel, Data Visualization, Statistics, Pandas, Machine Learning, Data Storytelling, AI Agents, C++

CERTIFICATIONS

Oracle Certified Foundations Associate (2026)

AICTE | IBM SkillsBuild Academic Internship – Data Analytics with AI, BharatCares

AWS – Solutions Architecture Job Simulation (Jan 2026);

Databricks Certification, Simplilearn/SkillUp (Dec 2025);

Deloitte Virtual Internship (2026);

Gemini Certified Educator (2026)

The Ultimate Job Ready Data Science Course, CodeWithHarry (Jul 2026);
